

# Hearing Voices That Are Distressing

## A Simulation and Training Experience in Campbell River

The goals of this experience are to:

- Learn about the subjective experience of hearing voices that are distressing
- Become more empathetic towards those who hear distressing voices
- Change clinical practices to better address the needs of people who hear distressing voices

Columbian Centre Society is offering this training program  
at the Maritime Heritage Centre, Campbell River

**Wednesday, April 16 2014**
